

Quality Policy

We want to achieve targets for:

- **Continuous improvement of our processes by achieving the standard „0-mistakes“**
 - **Compliance of the requirements for customers, authorities and laws**
 - **Organization of an economic and efficient quality assurance system**
 - **Complete integration and realization of ISO 9001 rev. 2000 standard in our processes**
-

We want to achieve our targets by:

- **Technical formation of our employees on all levels**
 - **Consequent application of Q-control system**
 - **Contacts with various official authorities and carrying out the required controls**
 - **Consequent applying of the internal instructions and check lists as well as the appropriate adaption of the customers' specifications and/or revision standards**
 - **Improvement of the process security and thus achievement of reduction of test expenditure**
 - **Integration of further tests directly into the manufacturing process**
-

We want to achieve our targets by the following measures:

- **Issuing a formation budget and plan for external formations and organisation of internal formations**
 - **Consequent issuing of deviations by the existing forms**
 - **Procuration of the latest standard specification editions, specifications and laws and verification of the necessary measures**
 - **Issuing and adapting the internal instructions and check lists**
 - **Realising error correction and information meetings**
-

We want to verify our results and learn by:

- **Organisation of audits and issuing corrective measure reports**
- **Issuing and evaluating error statistics**
- **Issuing Q-problem-solution-reports**
- **Issuing the yearly Management Report containing target controls and definition of yearly targets**
